AUF
Zeitungen und Zeitschriften
pro 1882.
Wenn ich mir jetzt schon erlaube, mein Abonnement auf Zeitungen, resp. Zeitschriften pro 1882 einzuladen, so geschieht es aus dem Grunde, weil der Jahrgang vornehmlich den Lesern der Zeitungen, welche in der Zeitungs-Verkaufsstelle am 1. October d. J. beginnt, und ich daher, um pünktlich liefern zu können, meine Abnehmer spätestens am 24. d. M. abschicken muss.
Da ich nach wie vor alle Zeitungen und Zeitschriften P. O. S. T. kommen lassen, so werde ich wie bisher so auch in Zukunft schellenheller liefern als irgend ein anderer Buchhändler und hoffe daher, mit recht vielen neuen Abnehmern besetzt zu werden.

ON SALE.
1.—Camp in Ten Arroyos (several lots) Buenos Ayres, Chivilcoy, Chacabuco, Lincoln, 26 de Mayo, and Las Flores.

Also several lots of land (a league each) recently purchased from the Nat. Government for the purpose of constructing a canal, the law authorizing the work usually gives the right of expropriation; but Governor Rocha has evidently such a multitude of public works in view, that he seeks by this general measure to economize the time of the legislators and at one sweep to pass a law that will embrace every imaginable public work, whilst expropriating every imaginable private right.

In the project of law before us we find the following interesting schedule of public works which, we suppose, the Government contemplates carrying out or expropriating.
Art. 4 of the proposed law reads as follows—
It is hereby declared of public utility—
No. 1. Railways at present running or which shall be hereafter constructed.
2. Telegraphs.
3. Lands for cities or towns.
4. Lands for Municipalities of cities or towns.
5. Lands for roads, streets or squares, and all roads, streets, squares and bridges at present constructed.
6. Canals for irrigation and transport and the lands for their construction.
7. Lands for prisons and penitentiaries.
8. Sites for Courts of Justice.
9. Lands for hospitals, lazarettos and cemeteries.
10. Lands for colonies.
11. Sites for markets.
A more exhaustive list than the foregoing could hardly be imagined, and that which most interests us is that on the passage of this law the Government will be able to expropriate suitable lands along our rivers and railways for the formation of colonies. The law in question is so long that it defies our columns, but we can take no exception to its provisions, inasmuch as the Governor and his Ministers have taken especial care for the protection of private property and private rights. An Arbitration Court will be formed to assess the value of all properties expropriated, and the owners will be fully indemnified, but it will be noted that the law is formed to enable the Government to expropriate railways at present running, and this seems a bit against the Great Southern Railway, the Northern, and Eneudena.

Now, where the Government is to find the money to pay for all the properties which it contemplates expropriating is to us a mystery; possibly in the progress of the debate on the Bill in question we shall be enlightened on this regard; but as the case stands at present, all the money in the Provincial Bank of Buenos Ayres would be insufficient to pay for the properties to be expropriated, and there is a certain dreary visionary halo around this bill which suggests the idea that it will never amount to anything.

THE POOR LITTLE SUFFERER
Will be immediately relieved by using MAX WINDSLOW'S SOOTHING STRIP for children teething. It softens the gums, reduces inflammation, cures wind colic, allays all pain, and gives the child quiet, natural sleep, from which it awakes invigorated and refreshed.

NEW EXPROPRIATION LAW
The new expropriation law presented to the Legislature by the Provincial Executive is a measure so vast, that unless the Public Works in this Province are about to be carried out on the most magnificent scale, the object of the law is far less obvious than the rights of private property upon which it must necessarily intrude. General laws are usually passed for general objects; thus, for instance, a general railway law is intelligible, as also a general banking law, or a general telephone law; but expropriation is in its very essence hostile to private rights, and hence it is that in Europe and in the United States such a law is always specific. To build a railway or construct a canal, the law authorizing the work usually gives the right of expropriation; but Governor Rocha has evidently such a multitude of public works in view, that he seeks by this general measure to economize the time of the legislators and at one sweep to pass a law that will embrace every imaginable public work, whilst expropriating every imaginable private right.

In the project of law before us we find the following interesting schedule of public works which, we suppose, the Government contemplates carrying out or expropriating.

HOWARD'S CELEBRATED PLOUGHS

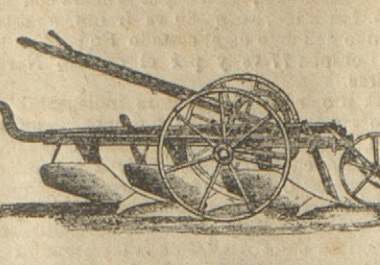

Howard's Double Plough.

The above implement effects great economy
in time and cost of ploughing, and its
success has been very marked wherever it has
been introduced. The depth of work can be
regulated by the lever at the plough point, and
at the ends, the plough is fitted with the
same lever close off the ground.
The implement is so strongly constructed
that in the hands of Kaffirs it cannot readily
be injured.

ters..... 12 0 0
Weight 4½ cwt.

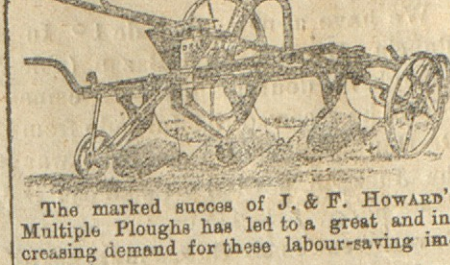

Howard's Triple Plough.

This is similar in construction to the pre-
ceding implement, but made to take three
furrows. It may at once be converted into a
Double Plough by the removal of the hinder
body, and this is sometimes desirable on ground
where the draught is heavy.

Howard's Meale Drill Plough

The marked success of J. & F. HOWARD'S
Meale Ploughs has led to a great and in-
creasing demand for these labour-saving im-
plements.

In addition to the economy effected by their
use in time and wages, their seedness has
been materially increased by the addition of
a simple drill which deposits the seed in the
middle furrow, where it is immediately cov-
ered with the earth raised by the next plough
share.

By this means the cost of sowing is avoided,
and no seed is wasted by being exposed to
birds or vermin, nor is it trampled by the
draught cattle. The seed is moreover sown at
a uniform width and depth, and thus a regular
growth of the crop is insured.

The above Implements kept in Stock by the Principal Hardware Merchants.
